Branch Directors Report

- Fire Verbal Report
 - Industry Verbal Report
 - Farm Verbal Report
 - Rescue No Report Submitted
 - EMS Verbal Report
- i. Ira Dyer, EMS Branch Director, serves as chair of the committee rewriting the state regulations for EMS. Mike Hulse expressed that National testing is causing problems for students. Ira stated that the problem isn't the test, it is the quality of education. Only been 3 people in Kentucky that have failed to pass it in the past 3 years. There is now control over security of the examination. Improve quality of education of EMTs in Kentucky. No longer national curriculum, although there are training guidelines, therefore, instructors have to create their own lesson plans, etc. CPR guidelines change, medical issues, etc. Ira will get information. Mike Hulse there needs to be better communication between EMS politics and fire department politics. The current concept is that the failure is to generate money. Ira stated that there needs to be an open door communication policy between agencies. He said that there was a change of leadership in the local EMT program and you see the result of the change with a higher percentage passing.

Branch directors will be sharing their email addresses with the membership.
